

As we conclude another successful academic year, we're delighted to unveil exciting updates for the upcoming term. In the next academic year, we will introduce new courses in Psychology, Nutrition and Criminology, alongside some new enriching sessions. These additions will enhance our curriculum and provide diverse learning opportunities for our pupils.

We extend our sincere thanks to our dedicated teachers, supportive parents, and engaged students for their invaluable contributions to our school community. As we approach the summer break, we encourage everyone to take time to recharge and prepare for the challenges and opportunities ahead.

Wishing you a fantastic summer, and we eagerly await welcoming you back in September

*Mrs Hamer, Executive Headteacher*

## Careers

Our career program's objectives are to give students the information they need to make educated decisions regarding their future courses of study and professional pathways, to help them gain an improved understanding of the working world, and to tell them of the opportunities that are open to them.

This term, our students have spent a day at Canterbury College, attended a careers fair at Dreamland and completed work experience with Communigrow.

Students had a tour of the college campuses, met with the Animal Management, Public Services and Health & Social Care departments and had an information session with the Student Wellbeing Team. Feedback from the students was that the day was an excellent introduction to college and made them feel happier about making college applications next year.

They attended various career talks and workshops with hosts including Industrial Light & Magic (Lucas Films), TikTok, and Canterbury Christchurch University.

During their work experience with Communigrow, students demonstrated their academic excellence by putting in a great deal of work and helping the charity prepare for its open day. The responses were positive and enhanced students comprehension of the working environment.
